Kiddy Junior Classes and our values

Our training center has been providing **expertise and passion** since 1980.

Our mission: to accompany your children from **3 to 18 years** old in **the initiation and improvement of languages** to help them feel confident about their future professional and personal lives.

Our wide range of world languages: Arabic, Chinese, Dutch, English, French, German, Italian, Greek, Lingala, Polish, Portuguese, Russian, Spanish and Turkish.

Our school is staffed by an **experienced, competent and considerate team of teachers**.

Why it is essential to learn a foreign language?

Speaking one or more foreign languages is essential for your children's future.

Language skills help boost personal and professional opportunities.

Language learning helps **develop concentration and memorization skills, improve school results**, gain self-confidence, open up to the world and understand regional and world cultures.

Do not dispose of on the public highway.

Our pedagogy

Who are our teachers?

Our educators are **language teaching professionals with experience in tutoring** young people. We choose them for **their professionalism and human qualities**.

They are native speakers or have the equivalent of C2 level (CEFR).

They all receive pedagogical training at our center.

Our immersive and active method

Maximum 10 participants per group divided according to age and language level.

Immersion in language through games, songs, everyday situations and interests.

How is my child's language level determined?

You will be asked an estimate of your child's level at the time of registration. Our advisers can help you determine the level.

The teacher will evaluate the level of each student based on oral skills during the first class. Your child will be able to change group depending on their level and possibilities.

What does my child do during the language camp?

At the end of the week, each participant receives **a certificate and a personalized evaluation of the progress and level achieved** in the foreign language.

Our teaching team is at your disposal throughout the week of the course.

- For children from 3 to 11 years old: Find the activities of each day, the vocabulary and edutaining games related to the theme of the week in the booklet made throughout the week.
- For teenagers: the educators will provide leaning material related to the different themes and topics covered during the course in order to develop all skills.

Practical organisation

Very easy: via our website www.kiddyclasses.net
